

Power is Personal

If you're a Time-of-Use (TOU) customer, you now have a choice. You can choose to switch to Tiered prices.

TOU

The price depends on when you use electricity. You can help manage your electricity costs by shifting your usage to lower price periods when possible.

Tiered

With Tiered pricing, you can use a certain amount of electricity at a lower price. Once you exceed that limit, a higher price applies.

Considering a switch? Use your own electricity usage information from your bill and our calculator to see, side-by-side, what your total bill would look like under TOU and Tiered prices.

These are the prices that appear on the Electricity line of your bill and are only for the electricity you use. They do not include other charges like delivery. If you have a contract with an electricity retailer, you pay the price agreed upon in the contract, not the price set by the OEB.
