

NOTICE OF A RATE HEARING

Newmarket-Tay Power Distribution Ltd. has applied to change its electricity distribution rates effective May 1, 2024

If the application is approved as filed, a typical residential customer and a typical general service customer of Newmarket-Tay Power Distribution Ltd. would see the following increase or decrease on their bill, resulting from the proposed changes to electricity distribution rates:

Customer Class	Newmarket-Tay Rate Zone	Midland Rate Zone
Residential (750 kWh)	\$2.63 per month	\$1.59 per month
General Service less than 50kW (2,000 kWh)	(\$0.92) per month	\$6.79 per month

Other customers, including businesses, will also be affected.

The requested rate changes are set using an OEB-approved formula, which is tied to inflation and other factors intended to promote efficiency.

Newmarket-Tay Power Distribution Ltd.'s application also includes a request for capital funding required for the mandatory relocation of electrical distribution assets due to a road widening project, in the Newmarket-Tay Rate Zone. The impact of this request is included in the bill impacts above.

Newmarket-Tay Power Distribution Ltd. has also requested that the OEB approve a retroactive adjustment to correct an error in previously approved balances in its cost of power flow-through variance accounts. Both Regulated Price Plan (RPP) and non-RPP customers in the Newmarket-Tay Rate Zone would be impacted, if this adjustment is approved by the OEB. The impact of this adjustment is not included in the bill impacts above.

It's important to review the application carefully to determine whether you may be affected by the proposed changes.
